

# LX

Levelling elements

#### technical informations

##### Base

Polyamide based (PA) technopolymer with adjusting hexagon. Resistant to solvents, oils, greases and other chemical agents.

##### Colour

Black, matte finish.

##### Stem

Threaded zinc-plated steel.

\* The max static load is the value above which the load applied to the element may cause some plastic material breakage, in particular conditions of use. Obviously, a factor that takes into consideration the importance and the safety level of the specific application must be applied to this value.
